2016 - 2018
Middlesex County
Directory of Adult Health Services

Lester Jones
Director-Health Officer

H. James Polos, Freeholder
Chairperson, Public Safety and Health Committee

PREFACE

As Freeholder Chairperson of the Public Safety and Health Committee, I am pleased to announce the publication of the third edition of the 2016-2018 *Middlesex County Directory of Adult Health Services*.

There are numerous services provided by many individuals, agencies, and departments throughout Middlesex County and the neighboring areas. This directory has been designed to serve as a guide to help make eligible residents aware of the services available to them. It is important for residents to utilize these services to improve their own and their families' health and wellness.

One of our objectives is to assist the residents of Middlesex County in finding and using quality health care services which meet their changing needs. I would like to commend the individuals, agencies, and departments mentioned in this document for their commitment in providing these services to the residents of Middlesex County.

H. James Polos, Freeholder
Chairperson, Public Safety and Health Committee

MESSAGE FROM THE DIRECTOR-HEALTH OFFICER

Dear Middlesex County Adult Health Partners and Residents:

The goal of the Middlesex County Office of Health Services is to assist our residents in accessing comprehensive, complete, caring, and high quality adult health services for the improvement and maintenance of their health and lifestyle, regardless of their personal or family circumstances.

There are a great many health services available through county and local health departments; federally qualified health centers; area hospitals and clinics; faith-based organizations; and homeless shelters. *This Directory of Adult Health Services* has been designed to serve as a guide to available programs for eligible residents and the appropriate mechanisms to access these critical health services. This directory will assist the Middlesex County Office of Health Services and our partners in achieving our goal of identifying areas of essential service needs to improve the quality of life for all of our residents.

As the Director-Health Officer of the Middlesex County Office of Health Services, I am pleased to offer this *Directory of Adult Health Services* for your use. I urge you to review its contents as it may apply to your health needs.

Lester Jones

Women's Trauma and Addiction Program

Princeton House
905 Herrontown Road
Princeton, NJ 08540
1-800-242-2550

Hours of Operation: Monday – Friday, 8:30 a.m. – 5:00 p.m.

Service Type: Counseling

Program Description: The Women's Trauma and Addiction Program is a comprehensive, innovative, cutting-edge model of treatment for women who are experiencing the emotional effects of trauma while simultaneously trying to get into or are in recovery from an addiction. The relationship between trauma and addiction is intense and

complex. They exacerbate each other, creating a vicious cycle that binds women into chronic relapsing. Instead of viewing relapse as a failure, this program uses the relapses in a specialized way to enhance motivation for recovery. Care is based on individual needs. Both the trauma and the addiction work can be done as an inpatient for short-term crisis stabilization or detox, or as an outpatient participant in a six-hour-per-day partial hospital program. Intensive inpatient or outpatient services are available for individual, group or family therapy.

Population Served: New Jersey

Eligibility: Women ages 18 years and older

Payment Accepted: Insurance

Languages Spoken: English and Spanish

Extended Outpatient Services - New Brunswick

University Behavioral Health Care
189 New Street
New Brunswick, NJ 08901
1-800-969-5300

Website: www.ubhc.rutgers.edu

Service Type: Mental Health and MICA

Program Description: The Extended Treatment Division provides a full range of outpatient services in the Newark, New Brunswick, South Brunswick, and Piscataway offices. A multidisciplinary staff of mental health clinicians, psychiatrists and nurses provide individual, group, couple, and family therapies along with psychiatric evaluations, psychological testing, medication management, nursing, case management and MICA (mentally-ill chemical abuser) services. Extended Treatment specializes in services to persons who have serious and persistent mental illnesses. Emphasis is placed on improved quality of life and increased functioning. The goal is to maintain people with mental illness in the community, and reduce both the number and duration of psychiatric relapses and re-hospitalizations.
