⁺The non-competitive leagues are for teams whose players are less experienced, newer to softball or have not played in many years and want to play in a lower intensity, fun atmosphere. This league is ideal for companies and businesses who would like their co-workers to get together after work and participate in an organized athletic activity.

^{*}The competitive leagues are more ideal for teams who have played organized softball together for several to many years and/or have players on their team who are experienced and have a moderate to higher skill level.
