Points of Information

NJ TRANSIT Bicycle Policies and Safety Tips
NJ TRANSIT supports access to its facilities and transportation services by bicycle. For safety reasons, the bus driver may not allow the bicycle on-board the vehicle if space is not available, cyclists must wait for the next available train. If a person is aged while on board any NJ TRANSIT vehicle or at any NJ TRANSIT facility, or if the bicycle does not meet the standards of either the American National Standards Institute (ANSI) or the Consumer Product Safety Commission (CPSC), it may be denied entry. Standard-frame bicycles are permitted to board trains on other sections. These characteristics contribute to how suitable the road segment is for bicycle use. The helmet must meet the standards of either the American National Standards Institute (ANSI) or the Consumer Product Safety Commission (CPSC). If you ride at night, you must wear a helmet, and do not have a light on your bike, be seen, and don’t have a light on your bike, be seen, and don’t.

1. Wear a helmet every time you ride. If you just ride for pleasure, you should still wear a helmet. It is designed to protect your head in case of a fall or collision. Most crashes between a cyclist and a motorized vehicle occur at the walk of the doorway to look for oncoming traffic. Never cycle at a signal or stoplight to avoid these injuries. If you are hit by a car, it will be safer if you are wearing a helmet.

2. Obey traffic laws. Your bike is a vehicle, not a toy. You must obey all traffic laws, including signs and signals. If you are stopped by the police, you may be ticketed for any traffic violation.

3. Use hand signals. Turn in an area with other traffic. When you turn a corner or take a left or right, signal your intentions to other drivers.

4. Know your limits. If you are tired or if you have been drinking alcohol, do not ride your bike. You must be able to maintain control of your bike at all times.

5. Share the road. Be courteous to other drivers and pedestrians.

6. Signal when making a turn. Let others know you are turning. Use signal lights or turn signals on your bike to signal your intentions to other drivers.

Ride Safely

Bicycle Lockers

Hospitals

Facts, Bottles, Farm Tools and Sewing Room with Period Clothing.

To occupy any available lane when there is no oncoming traffic.

When you ride on a bike, you should always follow the same rules as drivers do. You must obey all traffic laws, including signs and signals. If you are stopped by the police, you may be ticketed for any traffic violation.

1. Know your limits. If you are tired or if you have been drinking alcohol, do not ride your bike. You must be able to maintain control of your bike at all times.

6. Signal when making a turn. Let others know you are turning. Use signal lights or turn signals on your bike to signal your intentions to other drivers.}

New Jersey's Mandatory Helmet Law

All children under 17 years of age must wear a properly fitting and fastened bicycle helmet. The helmet must fit properly and be secured with a chin strap. The helmet must be certified by the Consumer Product Safety Commission (CPSC) or the American National Standards Institute (ANSI). The helmet must meet the standards of either the American National Standards Institute (ANSI) or the Consumer Product Safety Commission (CPSC). If you ride at night, you must wear a helmet, and do not have a light on your bike, be seen, and don’t.
