Sunday & Legal Holidays, 24 hours a day

Services Provided:

The Pediatric Call Center is provided by Saint Peter's University Hospital through community pediatricians who have subscribed to this service. The Pediatric Call Center helps parents answer any questions about their child's health after normal office hours. The Center is staffed by pediatric nurses with special training who advise parents about the management of their child's illness. They offer advice based on well-established protocols developed and refined nationally during the last 20 years. The pediatrician is notified in case of a medical emergency.

School Health Services

Rules are provided by the New Jersey Department of Education to the district boards of education for the development of policies and procedures to ensure the health and safety of students and personnel within the school setting.

Each district board of education establishes policies and procedures regarding the responsibilities of health personnel for students in the following areas: *

- 1) Care of injured or ill pupils;
- 2) Establishment of standard policies and procedures for surveillance and reporting of communicable diseases;

- 3) Notification of parents or guardians for children that need further immediate medical care;
- 4) Arrangement of appropriate transportation for immediate medical care;
- 5) Surveillance of sanitary operation and maintenance of school buildings and grounds;
- 6) Supervision of pupil safety in the school district.

*District boards of education, medical and other staff shall comply with the rules and regulations of the Local and County Boards of Health and the State Department of Health, where applicable.

Every school district is required to have a physician to conduct physical examinations and provide appropriate direction for the duties of medical staff. School districts are also required to have at least one school nurse. Under the direction of the physician and the school administration, the duties of the school nurse shall include, but not be limited to:

- 1) Assisting with physical exams and reviewing health history and immunization status;
- 2) Providing screenings including scoliosis, hearing, height, weight and vision;
- 3) Maintaining student health records;
- 4) Providing surveillance, recommendations, and follow-up for communicable disease;
- 5) Educating staff on communicable disease and other current health concerns;
- 6) Notifying parents of any identified significant health findings or screening results that require further medical follow-up;
- 7) Testing for tuberculosis as specified by the State Department of Health.

Consult your local board of education to verify the services available in your municipality.
