## **DISCLAIMER:**

The Middlesex County Division of Solid Waste Management does not endorse any group or company listed in this document. If your company wishes to be added as a resource in this directory please call us at (732) 745-4170, fax your information to us at (732) 745-3010 or email the information to: [solidwaste@co.middlesex.nj.us](mailto:solidwaste@co.middlesex.nj.us) and we will be happy to include you.

# Explanation

---

---

This directory is intended to identify markets to properly dispose of and/or recycle waste materials. Included within this Directory is a comprehensive listing of materials and companies which handle them in and around Middlesex County. The markets contained in the Directory are listed by material accepted. On each material page, markets located in Middlesex County are listed first. All entities except those noted are located in New Jersey.

Markets offer varying services. Some markets may offer to pick up material while others will only accept drop-off of material.

**It is recommended that you call the facility before dropping off any material in case there are specific instructions regarding proper disposal/recycling methods.**

**PLEASE NOTE: FEES MAY BE CHARGED FOR ANY PICK-UP AND/ OR DROP-OFF SERVICES RENDERED.**

To find a hauler to pick up recyclables or waste, look in the phone book, in the yellow pages, under garbage removal.

# Aluminum

---

Aluminum is a lightweight and silver colored metal. It is commonly used to make beverage containers. A magnet will not stick to aluminum.

# Appliances

---

Discarded appliances are sometimes referred to as white goods, such as refrigerators, washers and dryers. Most of the companies listed below take all different kinds of appliances to recover the metal for recycling. Pursuant to Middlesex County Solid Waste Management plan amendment 2006-2 all devices that contain CFC's (refrigerants) must be properly evacuated by licensed individuals and all CFC's recovered must be sent to an EPA approved reclaimer. Appliances containing freon such as refrigerators and air conditioners may result in a handling/service charge.

# Ballasts

---

Ballasts, found in lighting fixtures, if manufactured before 1979 may contain PCB's (polychlorinated biphenyls) - a hazardous substance regulated by the US EPA. Ballasts that DO NOT have the labels "NON-PCB" usually must be managed assuming PCB's are present. Ballast manufactured between 1979 and 1988 may contain a toxic substance called DEHP (diethylhexylphthalate) also regulated by the US EPA. Waste ballasts must be managed properly according to all applicable Federal, State and local regulations.

# Plastics #1 and #2

---

PET (Polyethylene Terephthalate), which is Code #1 is used to make soda, juice and water bottles. When PET gets collected, it will either be used in the production of new soda bottles or in the production of other petroleum based products such as textiles, insulation (for sleeping bags), cushioning for futons and other fiber based products.

HDPE (High Density Polyethylene), Code # 2 , is used to make laundry containers, milk bottles, water bottles and other bottle types. There are two types of HDPE: Natural and Colored. The HDPE Natural is usually used for milk and water containers while the HDPE Colored is usually used for laundry bottles.

# Polystyrene

---

This is Code #6 plastic material or polystyrene. It comes in two forms: one of which is hard and used in containers called rigid polystyrene and the other form is a lightweight packing material known as expanded polystyrene and is known as Styrofoam in the trade. Both of these forms are lightweight, white or clear but they can also be colored to add variety.
